**Recurrence:** (none)

# INTERAGENCY COORDINATION MEETING

March 14, 2017

DEQ, 1520 E. 6<sup>th</sup>, Helena, MT 59601, Room 111

Conference Call-In # 1-866-906-9888 Access Code: 7508058

To ensure good communications between the EPA, the Montana Department of Environmental Quality, the USDA-Forest Service, the Bureau of Land Management, the Natural Resource Damage Program and the U. S. Fish and Wildlife Service are hosting an inter-agency meeting on Tuesday March 14, 2017 in Helena. The agencies recognize the importance of our partner organizations in successful cleanup projects and welcome them to provide input and updates on their programs. The goal of the meeting is to reaffirm inter-agency dialogue, introduce agency personnel for various projects, outline 2017 projects with proposed partners, and give insight into where we have come from and what is our future direction (including projects and funding mechanisms). In the past such meetings have resulted in closer cooperation and coordination among the

agencies. This cooperation and coordination has allowed the various agencies to build off the momentum of each other.

#### Agenda:

Time	Topic	Presenters

<b>3:15PM- 3:30PM</b>	Concluding Remarks/Adjournment Is this meeting beneficial? Should we continue? THANK YOU FOR YOUR TIME TODAY! Travel Safely!	All Participants

DEQ will host a meeting on Wednesday, March 15 from 8:30 – 3:30 PM to solidify the Collaborative Group working on Mixed Ownership Sites across Montana. All are welcome to attend. This group will be focused on finalizing the framework for the collaboration, making commitments for future meetings, and finalizing the pilot project for this summer’s collaboration. That meeting will be held at the Ponderosa Room at the DEQ Cedar Street room. A separate invite will be sent out for that meeting. However, if you are interested in attending that meeting, please let me know so I can be sure you are on that invite and update list.
